Re: Utility Signoff for **-52 Sammis Street. Account #3232**

To whom it may concern:

This letter is to be considered confirmation that I have reviewed the plans and (Cam) application for the above address. Our records indicate that the existing water service is non-conforming to our current rules and regulations. We have no objections for the new proposed single family residence as long as the following conditions are met: The property owner will need to hire their private contractor to disconnect and upgrade the service line in the road. The new service line and meter size will be determined after our "modified water service application" is filled out and completed.

Back in November of 2021, the second taxing district commissioners adopted our new "System Development Fees". These new fees can be found on our website at [SNEW.org](http://SNEW.org) under water rates and fees. Should you have any further questions, feel free to give me a call. Thank you!

Regards,

*Justin Andriopoulos*
