

PUBLIC COMMENTS

As expected, we have received a TON of responses to the draft zoning changes. We appreciate the feedback. As promised, Staff has provided responses to each and every one. Hopefully we didn't miss any!

RESPONSES:

Below is a link to a table that contains all the responses through June 16, 2023. The responses in the table were mostly received through the online submittal form, while some were also submitted to Staff via email. The emails were added to the table and responded to as well.

We did receive some letters as well. They are referenced, while the actual letters are included separately below.
